Thanks for sharing this perspective Yolanda. I'm looking forward to connecting with folks who have been here for a few days and understanding their perspective. Regarding "pushing data conversations" who has a strong interest in getting data out?

Jamie

Great! You are going to be such a huge asset for the team!!!

I have some concerns about "risk communication" I wanted to give you the heads-up on. In a nutshell, I'm concerned people are going to try to push data out and push you to have data conversations. But, we have such a relationship nightmare at the moment, I think saturating the conversation with data may worsen things. This is one of those situations where the data won't really matter until the people are asking for it.

Actually, you should probably discuss more with Amanda and the field team. Those are just my observations from far, far away.

Take care of yourself.

Yolanda
